

SIVA PRASAD VAJJA

Senior Software Engineer with 5+ Years of experience in enterprise and consulting-driven application development.

+919182373491 v.sivaprasad7482@gmail.com LinkedIn GitHub Enugupalem, India

PROFESSIONAL SUMMARY

Senior Software Engineer with over 5+ years of experience in enterprise and consulting-driven application development. Expertise in **Java**, **Spring Boot**, **Microservices architecture**, and **React**-based integrations. Proficient across the full SDLC, including requirement analysis, high-level design, development, testing, CI/CD, deployment, and production support. Demonstrated ability to build **scalable**, **secure**, and **high-performance systems** that align with SLAs and business objectives. Strong skills in debugging, performance tuning, and architectural problem-solving within Agile environments.

SKILLS

Programming Languages:	Java, JavaScript
Frameworks & Libraries:	Spring Boot, Spring MVC, Spring Data JPA, Hibernate, Spring Batch, Spring Security, Microservices, RESTful Web Services, Camunda BPM, API Integration
Frontend Exposure:	React
Databases:	RDBMS, SQL, MySQL
DevOps & Tools:	Git, GitHub, GitLab, Maven, Jira, CI/CD
Concepts:	OOP, Design Patterns, Transaction Management, Multithreading, Collections, Streams, Exception Handling, Performance Optimization, Secure Coding Practices
Methodologies:	Agile/Scrum, Sprint Planning, Estimation, Code Reviews, Refactoring
Core CS:	Data Structures & Algorithms, Problem Solving
AI-Assisted Development:	GitHub Copilot, Cascade, LLM-based coding assistants, AI agents for code generation and test scaffolding.

WORK EXPERIENCE

Senior Software Engineer Full-time	Aug 2021 - Present
SIX DEE Telecom Solutions Private Limited	Remote • Bengaluru, Karnataka
Project: CRM Core Platform	

Environment: Java 17 | Spring Boot | Spring Data JPA | Microservices | REST APIs | ReactJS | Camunda BPM | Spring Batch | SQL | GitLab | Maven | Git | JUnit | Agile Scrum

- Key Contributions:
- Designed and developed scalable microservices and REST APIs using Java and Spring Boot.
 - Built modular backend components following SOLID principles and layered architecture.
 - Implemented JPA/Hibernate persistence with optimized database access and transaction management.
 - Developed Camunda workflows and Spring Batch jobs for business process automation and bulk data processing.
 - Integrated ReactJS frontend components with backend APIs to deliver responsive user experiences.
 - Optimized application performance through SQL tuning, API improvements, and efficient service design.
 - Supported CI/CD pipelines using GitLab for automated build, testing, and deployment.
 - Performed production support, root cause analysis, and defect resolution while maintaining SLA commitments.
 - Collaborated with QA, DevOps, product owners, and business stakeholders within Agile Scrum teams.
 - Contributed to code reviews, technical discussions, and continuous improvement initiatives.

Front-End Developer Intern | Internship

TechZite Solution Private Limited

Feb 2021 - May 2021

On-site • Vijayawada, Andhra Pradesh

- Developed a responsive web application for a news publishing platform, enhancing user engagement and accessibility.
- Collaborated with the development team to implement UI enhancements and new features, improving overall functionality.

Technologies / Skills Used: React, JavaScript

ACADEMIC PROJECT

Image Caption Generator | Developer

Oct 2020 - Feb 2021

- Developed a deep learning model utilizing CNN and LSTM for automated image caption generation.
- Applied core concepts of NLP and computer vision.

Technologies / Tools Used: CNN, LSTM

EDUCATIONS

Vignan's Foundation for Science, Technology & Research | Andhra Pradesh

2019 - 2021

Master of Computer Applications (MCA)

CGPA: 81/100

ADDITIONAL STRENGTHS

- Demonstrated strong understanding of object-oriented design principles and identified deviations effectively.
- Wrote unit tests using JUnit, enhancing code coverage significantly.
- Comprehended microservices communication patterns and implemented data consistency strategies.
- Debugged complex issues independently with minimal supervision.
- Exhibited clear communication skills, interacting effectively with stakeholders and clients.
- Focused on building secure, maintainable, and scalable enterprise solutions.
